

....Dry, Westerly Winds of Japan

Every "K.Yairi" guitar is given birth in Kani, a small community in the beautiful mountainside area of Honshu, Japan. In a truly unique, larger workshop-like guitar factory there, "K.Yairi" guitars are made under the strict supervision of Mr.Kazuo Yairi, owner of the "K.Yairi" guitar company. The factory is staffed with carefully chosen master craftsmen, many of whom have worked there for years on their skills. The calm atmosphere of the surroundings, and Mr.Yairi's attention to making the best guitars possible, are all reflected in each and every individual instrument.
