097-9500-021
MSRP: \$ 429.99

The banjo is instrumental (pardon the pun) in American music. Originally descended from traditional African instruments, it plays a major role in bluegrass and country and even pops up occasionally in rock, jazz and fusion. Nothing else sounds like it, and it's a fun instrument to play.

Now it's easy to get started playing banjo—our **FB-300 Banjo Pack** includes a **Fender banjo, gig bag, strings, tuner, picks** and an **instructional book**. Everything you need to start a pickin' and a grinnin' right now, all in one package.
