

# PRIVATE MUSIC LESSONS

## Wanna Play?

Music has always had a profound influence on planet earth (perhaps elsewhere too - the Bible says that long ago "the stars sang together"). Most people, sometime during their lives, wish they were involved in this process of making music. Some people live with regrets that either they or their children never got into music. *Good News!* It is never too late (and hardly ever too early) to make "making music" a part of your life.

Firey Brothers Music was started 31 years ago as a music teaching store. (In 1978, a private music lesson cost only \$3.50!). Today, we remain as committed as ever to the importance of learning to play musical instruments - for people of all ages. The benefits of making music can span a lifetime. (You don't see many 80 year olds out playing soccer or football - but you can find them making music at that age and beyond.)

At our new location at 516 S. Sheridan in midtown Tulsa, we have 6 teaching studios for private music lessons. We are here to help you get started in a lifetime of musical memories. **Call us today for more information or to sign up.**
